The latest phrase for licking a man is to say you will fall down on him.
The Graphic circulating library has a list of patrons numbering two hundred.

There is getting to be considerable sickness through the country. The continued heat is producing its effect.
Good butter has been rather scarce in this market for some days and commands a good cash price.

An important business meeting will be held in the Christian church Wednesday evening at 8 p. m. All the members of the church are urged to be present.

It is now almost impossible to rent a house in this place, houses being so scarce that people who would like to move into town can not for want of houses to live in.

Friday morning early, burglars entered the residence of Mike Kelly, Judge Burkholder and Mr. Roemer, in Moberly, and helped themselves to money and valuables to the amount of \$400.

We have received the premium list and announcement of the sixth annual fair to be held at Trenton. It will commence on Tuesday Sept. 27th and continue five days. The pamphlet is a creditable piece of work and was printed at the Republican Book and Job office.

A Quincy dispatch states that the post office department has ordered the mail service extended from Milan to Trenton to begin next Monday, but if the hot weather continues, the road will not be in proper condition. The Haley merchants still get their goods by wagon from Milan.

If Kirksville desires to continue her boom she must add to her present attractions manufactures of various kinds. These are enterprises which add to our prosperity in two ways, first, bringing trade from a distance, and second, by furnishing employment to a larger population.

The AGENTS' HERALD is the title of a new, spicy, monthly, published as its name indicates, in the interests and for the information of agents. It is sent for 50c a year, and would be cheap at twice that amount. One of the most interesting and laudable features of the Herald is its exposure of swindling advertisers and bogus firms. Single Nos. 10c.

Address Agent's Herald, Philadelphia, Penn.

A sad accident occurred last Sunday morning to the family of Mr. Webster Clark. His son Edward, aged 19, was out in the storm that visited this section when he was struck by lightning and instantly killed. He was a fine, promising young man of temperate habits and had the respect of all his associates. He was buried at Oak Grove cemetery on last Monday. The bereaved family have the sympathy of the whole community.—Milan Free Press.

What the Graphic said to create an interest in a movement to secure manufacturing industries, was at the instance and suggestion of business men of both parties. If the Democrat is so childish as to ridicule and oppose such suggestions because they were first mentioned in the Graphic it injures no one but itself. We have no particular objections. There is no law against newspaper men making fools of themselves if they wish to. In this case we believe it entirely spontaneous and natural.

BRIEF GRAPHICS.

Messrs. Griggs, Pickler and Dockery were out on a mineral spring hunting expedition one day this week. They think they have found two excellent springs but no analysis has yet been made of the water. A number of springs in the west part of this county have long been known to possess medicinal properties, and are so mentioned in some of the state reports, but until recently but little attention has been attracted to them.

Kirksville should have a good machine repair shop, a foundry, agricultural implement manufactory, tile works and a number of other industries, if she expects to continue her growth. The Graphic brings hundreds of dollars to this place from a distance, and gives employment to a number of hands. Other branches of industry could be worked up in the same manner, if the proper vim and capital were put into them.
